

**Master of Science (MSC) in Petroleum Geology**  
**Laurea Magistrale in Geologia degli Idrocarburi**  
**A.Y. 2016-2017**

Family Name and Name \_\_\_\_\_ Student code (matricola) \_\_\_\_\_

E-mail address \_\_\_\_\_ Tel. n. \_\_\_\_\_

Deadline by 28th February 2017 (for students enrolled in Academic Year 2016-2017)

*I year*

<i>Educational Activities</i>	<i>SSD</i>	<i>Courses</i>	<i>notes</i>	<i>CFU</i>
characterizing	GEO/02	Sedimentology	<input checked="" type="checkbox"/>	9
characterizing	GEO/10	Applied Geophysics	<input checked="" type="checkbox"/>	9
characterizing	GEO/03	Global Tectonics	<input checked="" type="checkbox"/>	6
characterizing	GEO/02	Integrated Stratigraphy	<input checked="" type="checkbox"/>	6
characterizing	GEO/10	Seismic Interpretation	<input checked="" type="checkbox"/>	6
characterizing	GEO/08	Applied Geochemistry	<input checked="" type="checkbox"/>	6
characterizing	GEO/03	Structural Geology	<input checked="" type="checkbox"/>	9
1 optional course*	-----			6
<i>Additional training activities</i> (art. 10, comma 5, lettera d)				
Other useful knowledge for entering the world of job	Geological Field Trips Eni Seminars		<input checked="" type="checkbox"/>	3

*II year*

<i>Educational Activities</i>	<i>SSD</i>	<i>Courses</i>	<i>notes</i>	<i>CFU</i>
characterizing	GEO/02	Petroleum Geology – mod. 1 (Exploration and Petroleum System)	<input checked="" type="checkbox"/>	12
	GEO/03	Petroleum Geology – mod. 2 (Petrophysics and Reservoir Geology)		
related and additional activities	GEO/04	G.I.S. – Geographic Information Systems	<input checked="" type="checkbox"/>	6
related and additional activities <i>Please choose one of the two courses listed by ticking the option.</i>	GEO/01	Micropaleontology	<input type="checkbox"/>	6
	GEO/05	Hydrogeology	<input type="checkbox"/>	
1 optional course*	-----			6
<i>Additional training activities</i> (i.e. art. 10, comma 5, d)				
Other useful knowledge for entering the world of work	ENI Seminars		<input checked="" type="checkbox"/>	3
For the final exam	Final stage and thesis		<input checked="" type="checkbox"/>	27

**Master of Science (MSC) in Petroleum Geology**  
***Laurea Magistrale in Geologia degli Idrocarburi***  
**A.Y. 2016-2017**

As for the optional courses, students can choose among all the teaching courses not otherwise used in the *MSC – Petroleum Geology* curriculum, as well as courses activated in the *Laurea Magistrale in Scienze e Tecnologie Geologiche*. Students can also choose among all the teachings activated at Perugia University, provided they are consistent with the *Master of Science (MSC) in Petroleum Geology* training curriculum. Consistency will be evaluated by the CCCS (Didactics Committee).

Curriculum that will include the teachings listed below will be considered automatically approved. The CCCS can also recognize under *Additional Training Activities (i.e. art. 10, comma 5, d)* educational activities which do not correspond to teachings, for ex. additional language skills, computer skills, study periods abroad, up to the maximum of 12 credits.

**Optional courses available in English by Academic Year 2016-2017:**

- **Sedimentary Petrography,**
- **Reservoir Geology.**
