Recommendation

- The **first requested information** is **mandatory** and concerns the **percentage of attendance** at the lessons. Pay attention to this question on frequency, answering in an appropriate way and corresponding to the actual situation, in order not to distort the results of the assessment.

Once you have declared your position regarding attendance, the system proposes a specific questionnaire, **depending on the type of Student** (attending or non-attending).

Recommendation

- After the initial question about attendance, the **following questions are not mandatory**.
- At the end of the questionnaire and before confirming it, a **summary page** of the answers provided appears. You **can change opinion** expressed by selecting the icon that refers to the page to be edited.
- After checking the answers displayed, select the **CONFIRM** button at the bottom of the summary page to confirm the evaluation made. **At this point the questionnaire will no longer be editable or even viewable**.
- The **absence of the icon** in the Q.Val column for a given course means that, for this activity, the didactic evaluation questionnaire **is not available**. Therefore, the booking of the exam session is not subject to the completion of the questionnaire.
